

Introducing: **three for me** LASER TREATMENTS

The brighter solution for you and your practice!

Suneel Chilukuri, MD
Refresh Dermatology,
Houston, TX

Three things I've learned

1. **ThreeForMe** is the proven solution to get rid of wrinkles, sun damage and facial veins all at the same time.
2. Cynosure's increased marketing support, advertising and SEO is driving patient demand.
3. ThreeForMe treatments have increased patient satisfaction. These patients continuously refer their friends and family who are amazed at the results.

“My patients are excited because they see the ‘wow’ effect much sooner than any other treatment.”

— S. Chilukuri

ThreeForMe laser treatments combine the proven technology of Icon's MaxG and 1540 handpieces to deliver the benefits of both in one simple treatment session. The treatment is fast, delivers dramatic results and has minimal downtime. These treatment benefits in conjunction with Cynosure's dedicated marketing resources make this a must-have for every practice.

It's as easy as One, Two, ThreeForMe.
