

EARLOBE REPAIR POST PROCEDURE INSTRUCTIONS

- Keep dressing dry and intact the evening after surgery and until the morning you return for suture removal. Please notify Dr. Chilukuri if your dressings become loose.
- Use pain medication as directed and on an as needed basis. If you have been prescribed Vicodin, do not take additional Tylenol, as Vicodin contains Tylenol.
- Sleep with the head of your bed elevated or use two to three pillows for one week after surgery. No bending, lifting, or straining. If you have small children, bend at the knees or sit on the floor and let them climb in your lap.
- Avoid putting the phone to your ear for one week after procedure.
- You may wear clip on earrings beginning two weeks after your procedure.

We want you to have an outstanding result. If you have any questions or unexpected concerns, please call the office for assistance.
