

ECLIPSE MICROPEN POST TREATMENT INSTRUCTIONS

Immediately:

Step 1: Using a damp gentle gauze or disposable cloth, pat down the treated area.

Step 2: Reapply thin layer of Eclipse Restorative HA Peptide Gel

Step 3: Apply Sunscreen recommended by Dr. Chilukuri or his team.

Day 2 & 3 Eclipse Dermal Recovery System:

1. **Cleanse** – clean Skin using Anti-redness gentle Cleanser.
2. **Restore** – apply Eclipse Restorative HA Peptide Gel over entire treatment area.
3. **Protect** – apply protective Sunscreen.
4. **Repeat as necessary throughout the day.**

Note: Avoid sweaty exercise for first 12 hours. Avoid excessive sun exposure for first 72 hours.

Day 4: Discontinue the Eclipse Restorative Peptide gel. Start Skin Medica Recovery Complex or Regenica repair twice daily. Resume Normal Skin care Routine.
